One shot dead as FBI arrests Oregon occupation leader, others

(Reuters) One protester was shot dead and eight others were arrested on Tuesday after authorities confronted members of an armed group that has staged a month-long occupation of a federal wildlife reserve in Oregon, activists and officials said. The FBI said gunshots rang out after officers stopped a car carrying protest leader Ammon Bundy and others near the Malheur National Wildlife Refuge. Activists said Robert LaVoy Finicum, a rancher who acted as a spokesman for the occupiers, was killed. FBI agents were setting up a perimeter on Tuesday night around the wildlife refuge, where some people were still holding out, continuing their protest against federal control of large tracts of the country, a law enforcement official told Reuters. One of the remaining occupiers, Jason Patrick, told Reuters by phone they would stay until the "redress of grievances". "I've heard 'peaceful resolution' for weeks now and now there's a cowboy who is my friend who is dead – so prepare for the peaceful resolution," Patrick said. The takeover at Malheur that started Jan. 2 was a flare-up in the so-called Sagebrush Rebellion, a decades-old conflict over the U.S. government's control of millions of acres of territory in the west. Protesters say they are defending the Constitution. The Oregonian reported that Bundy had been enroute to a community meeting in John Day, Oregon, where he was scheduled to be a guest speaker, when authorities stopped his vehicle. The newspaper said 43-year-old Ryan Bundy, Ammon's brother, suffered a minor gunshot wound.

French Minister Christiane Taubira resigns amid terror row

(BBC) French Justice Minister Christiane Taubira has stepped down from her job, shortly before plans to strip people convicted of terrorism of their citizenship go before parliament. Ms Taubira was known to disagree with the controversial proposals. The citizenship plans were put forward after the 13 November Paris attacks in which 130 people were murdered. "Sometimes staying on is resisting, sometimes resisting means leaving," she tweeted. Ms Taubira, one of France's few senior black politicians, has been replaced by Jean-Jacques Urvoas who is seen as a supporter of the constitutional change and an ally of Prime Minister Manuel Valls. Born in French Guiana, Ms Taubira, 63, has suffered racist taunts from the far-right during her time as justice minister. Her left-wing leanings have put her increasingly at odds with official policy, especially after the November attacks - when the president announced a much tougher line on terrorism, BBC Paris correspondent Hugh Schofield reports. A communique from the Elysee Palace said that President Francois Hollande had accepted the justice minister's decision to resign. "They agreed on the need to bring her role to an end at a time when debate on constitutional revision begins in the National Assembly, today," the statement read. Mr Valls was due to present the reforms before a committee at the National Assembly on Wednesday before they go before MPs next week. He told the BBC last week that France could not live forever under a state of emergency but as long as the threat remained all means had to be used "until we can defeat Daesh (so-called Islamic State). The reforms include the right to declare a state of emergency under the constitution, which would make it easier for the French government to adopt strict powers such as police raids and house arrests. The government aims to extend the three-month state of emergency imposed after the November attacks when it expires on 26 February.

WEATHER

WEATHER SYNOPSIS BY REGION:

NORTHERN CALIFORNIA AND CENTRAL COASTAL AREAS:

Eureka Weather:

Upper level ridging will prolong mostly dry weather through Wednesday before a low end atmospheric river brings widespread rain Thursday afternoon and Friday. The weather pattern will remain unsettled through the weekend.

Medford Weather:

Another quiet day can be expected underneath a high pressure area. The cold front offshore will move into the coastal waters tonight and will bring gusty south winds to the coast and the coastal mountains. This front has tapped into subtropical moisture and the atmospheric river will bring plenty of rain to extreme Northern California starting Thursday morning.

Reno Weather:

Warm and dry conditions predicted with high pressure today and Thursday. The next system will arrive early Friday and this weekend. Rain, high elevation snow and gusty winds on Friday with snow levels lowering and significant snow likely in the higher elevations of the Sierra for the weekend.

San Francisco Weather:

High pressure aloft will maintain dry weather conditions and mild temperatures through Thursday. Rain chances return from the north during the day Thursday and will spread slowly southward through Friday. Lingering showers will be possible on Saturday with an increased chance of precipitation Saturday night into Sunday.

WEATHER

WEATHER SYNOPSIS BY REGION:

CENTRAL CALIFORNIA AND SOUTHERN SAN JOAQUIN VALLEY:

Sacramento Weather:

Dry weather predicted with morning valley fog through mid-week. Wet storm system will affect Northern California from late Thursday into the weekend.

Hanford Weather:

High pressure will bring dry conditions to Central California through Thursday. However, periods of nighttime and morning fog will be possible across the San Joaquin Valley. Above normal temperatures will prevail. A storm system will move into Central California by the weekend bringing a return to unsettled conditions.

SOUTHERN CALIFORNIA:

Los Angeles weather:

Weak to moderate offshore flow and above normal temperatures will continue through Friday. Increased onshore flow and partly to mostly cloudy skies will bring cooler temperatures to the area Saturday. A low pressure system will give the area a good chance of rain and mountain snow Saturday night into Monday followed by dry and cool weather for next Tuesday.

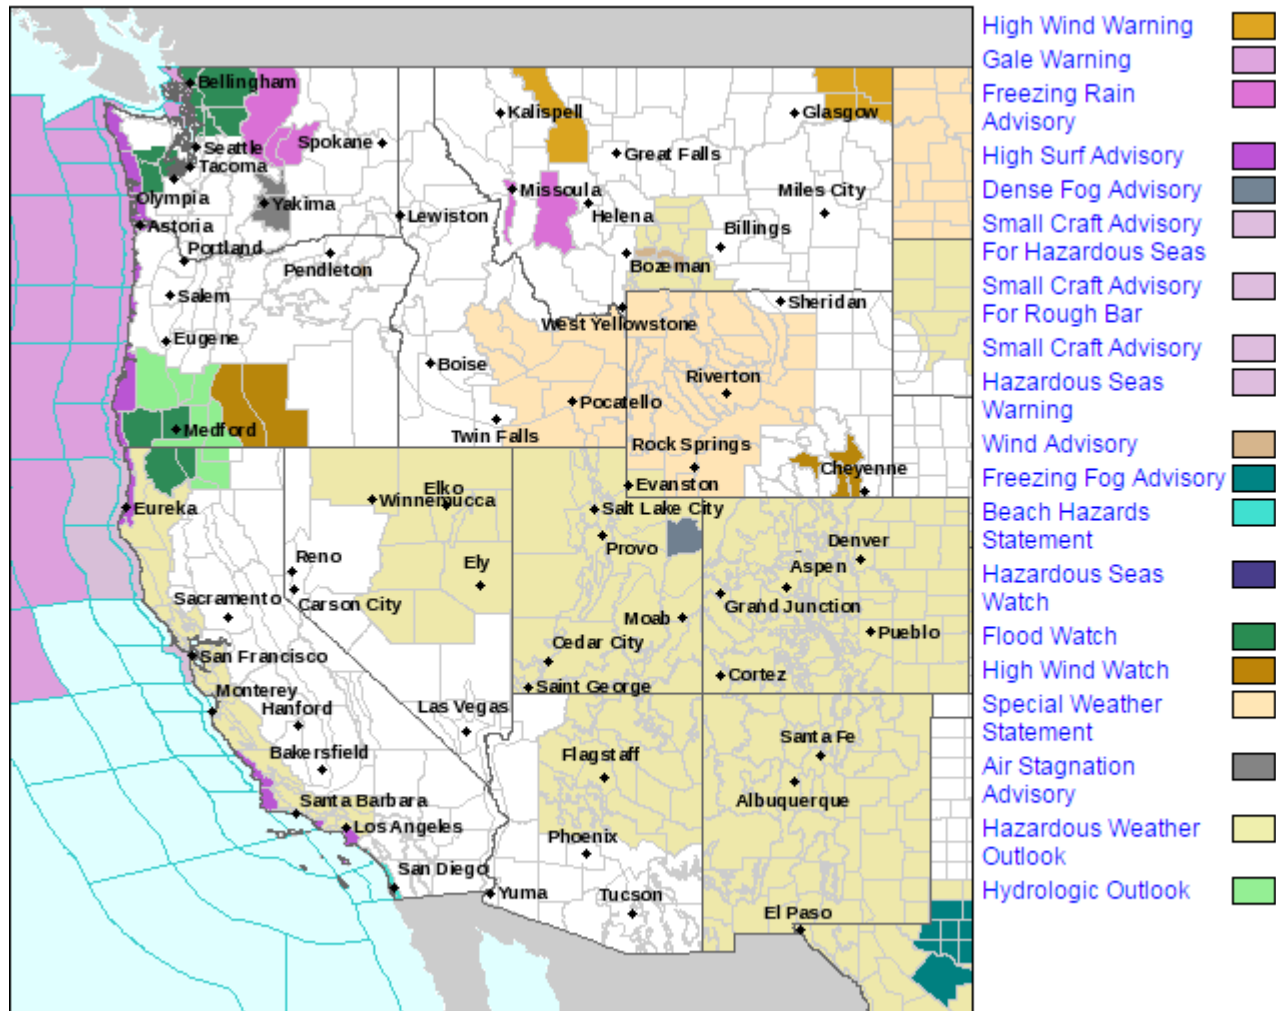

Extreme Southwestern California including Orange, San Diego, Western Riverside and Southwestern San Bernardino Counties:

High pressure aloft and offshore flow will bring warm dry weather this week. By next Sunday, it will be much cooler with rain likely and possible strong winds when a storm system moves across California.

Southeast California Weather:

High pressure will result in dry and mild conditions through Friday with breezy north winds lingering in the Colorado River Valley. A series of Pacific storms will bring unsettled weather conditions to the southern Sierra late Friday. Much cooler temperatures return early next week.
